

Human resources workshops 2010

Mills & Reeve and the Akenham Partnership have pleasure in bringing you a series of workshops focusing on some of the key issues that affect your staff.

The twists and turns of flexible working

21 April 2010 8.00-10.30am

Mills & Reeve LLP, Francis House, 112 Hills Road, Cambridge, CB2 1PH

We are all familiar with dealing with the raft of family friendly policies such as requests for flexible working, time off for dependants and parental, maternity, paternity and adoption leave. With proposals to further extend these rights in the pipeline, with a possible change in Government and faced with our workforces getting busier and asked to take on new responsibilities, this session will look at the tensions which sometimes arise and how some employers are taking steps to address this. We will also look at a number of specific issues which continue to exercise us such as dealing with requests to work part time on the return from maternity leave.

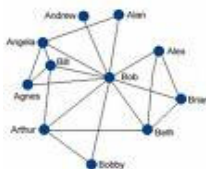

All shook up!

16 June 2010 8.00-10.30am

St John's Innovation Centre, Cowley Road, Cambridge, CB4 0WS

The economic goings on in the last 24 months have simultaneously engaged some people and disillusioned others. This is a widespread issue that is being reported from board rooms to the shop floor. If you couple this with a steady rise in stress, bullying and harassment claims, particularly those of a political nature, it would seem that people are showing signs of being "shaken up". This session will look at the tension hot spots that are being reported by organisations and what can be done to engage and harmonise leaders, managers and teams in the year ahead. We will then look at some of the claims that are occurring, what trends seem to be emerging and how we can prevent and manage these taking hold in our organisations.

The power of social networks

29 September 2010 8.00-10.30am

Mills & Reeve LLP, Francis House, 112 Hills Road, Cambridge, CB2 1PH

Global social network research is far more mature than our use of social networks in the UK. We still have a lot to learn about the use of external social networks, such as Facebook and Twitter, but we also have a lot to learn about our analysis of internal social networks within the organisation. With knowledge and understanding, we can use this information to make well considered judgements on the design and implementation of change, integration and communication strategies. Will Sambrook of Akenham will share with you his research in this area and provide a number of case studies that show the need to understand social networks in the organisation. David Mills of Mills & Reeve will take an insightful look at the legal issues surrounding the use of social networking and other publicly viewable media.

Human resources workshops 2010

Booking form

Please provide your details below and tick the workshops you wish to attend:

Name	
Position	
Organisation	
Address	
Postcode	Telephone
